TEXAS REPORTS ON BIOLOGY AND MEDICINE

INDEX FOR VOLUME 19, 1961

Subject Index

	Page
Aging, relation to salt susceptibility in mice	739
Amino-acid analogs, antitumor activity of	860
Amnion cells, human, recovery from radiation injury	811
Antibiotics effective against psittacosis virus, cytochemical test for detection of	343
Antigen–antibody reaction, enzymatic and turbidometric measurement of	145
Antitumor and toxicity properties of carboiimides	354
Antitumor activity of amino-acid analogs	860
Ascorbic acid in adrenals of Thiamine deficient rats	188
Asthmatic children, studies on their relationship to their mothers	300
Bacillus, variation in nucleic acid phosphorus content	258
Bone demineralization: a microradiographic study	676
Burns, effect of sera from patients on mice experimentally infected by *Pseudomonas aeruginosa*	268
Cancer of the lung 1930 to 1960: a review	465
Cancer chemotherapy, essential oils and plant extracts in	321
Carbodiimides, antitumor and toxicity properties	354
Cardiac and renal lesions due to fludrocortisone and factors influencing their development	774
Chest X-ray findings in early disseminated lupus erythematosus	658
Chromosomes *in vitro*, effects of smoked paper, tobacco and cigarettes	518
Coma in unsuspected intracranial meningiomas	625
Cortisone, suppression of leukergy induced by endotoxin	60
Coxsackie virus and poliovirus in mice and tissue cultures	585
Cytological studies of tumors, MTK sarcoma II	613
Demineralization in bone	676
Deoxyribonucleic acid during renal compensatory hypertrophy in the rat	825
Deoxyribonucleoside metabolism by rat erythrocyte extracts	833
Di- and tri-peptides, effect on bacterial growth	358
E-aminocaprioc acid inhibition of fibrionolytic system	16, 50
ECHO 10 reovirus in monkey cell cultures	851
EEG studies in physical fatigue	332

PAGE

Egg-laying capacity of the snail *Bulinus truncatus* 327
Electromyography and needle biopsy 749
Entamoeba histolytica growth of a strain at room temperature 393
Enteroviruses, naturally occuring in monkeys, effect of guanadine on 529
Enzymes of the kidney of the normal and hypertensive rat 633
Erythrocyte extracts, deoxyribonucleoside metabolism by 833
Erythrocyte survival in normal and stressed rats 769
Essential oils and plant extracts in cancer chemotherapy 321

Fasting and small intestinal transit 540
Fatigue, physical, EEG studies in 332
Fibrinogen-fibrin conversion, effect of riboflavin-5-phosphate 178
Fibrinolysin, effect of E-amino-caproic acid on 50
Fibrinolytic system: Review of therapeutic significance and control 16
Filarial worm *Litomosoides carinii* 381
Five-bis-(2′chlorethyl)aminouracil inhibition of uptake of L-lysine-U-C^{14} 761
Fludrocortisone and factors influencing the development of cardiac and renal lesions 774
Fluorescent antibody studies on growth of poliovirus in tissue cultures 106
Food intake studies on goldthioglucose obese CAB mice 80
Fungal pigment with certain unique properties 140
Furaltadone, *in vitro*, effect on staphylococci 35

Goldthioglucose obese CAB mice, food intake studies 80
Gonadotrophic levels, effect of morphine on 646
Guanidine, effect on experimental poliomyelitis and on naturally occurring enteroviruses of monkeys 529

Herpesvirus simiae (B virus), antibodies in human sera to 376
Hindgut, malposition of the 39
Histology and lipid content of the rat adrenal gland, effect of pinealectomy on 843
Homologs of isoleucine and valine, biological activities of 801
Hypertensive rat, enzymes of the kidney 633
Hypothermia, effect on thoracic duct lymph 785

Isoleucine and valine homologs, biological activities 801

Kidney cell cultures 194
Leukergy suppression by cortisone 60
L-lysine-U-C^{14}, inhibition of uptake by 5-Bis-(2′Chlorethyl)-Aminouracil 761
Lupus erythematosus, chest X-ray findings 658

PAGE

Mammary cancer, susceptibility of new mouse strain to 706
Meningiomas, intracranial, rapid progressive coma in 625
Medical education in Texas 233
Metabolic antagonists, thioester analogs as non-competitive 277
Morphine, effect on pituitary cytology and gonadotrophic levels 646
Morphology of viral tumors in mice 217
MTK-sarcoma II, alterations of cell populations 613
Muscular dystrophy: spontaneous occurrence in ducks 167

Neoplasms, avian, submicroscopic morphology 545
Nephroblastoma, submicroscopic morphology 545
N-orotyl-N'N'-diethyl-ethylenediamin HCl, mode of action on cells *in vitro* 44
Nucleic acid phosphorus, variation in content between strains of *bacillus* 258
Nutrition, the expanding horizon: a review 245

Orotic acid antagonist, mode of action on cells grown in tissue cultures 44

Peptide studies IV: Inhibition of bacterial growth by di- and tri-peptides 358
Pinealectomy, effect on histology and lipid content of the adrenal gland of the rat 843
Pituitary cytology, effect of morphine on 646
Pituitary hormones, effect on preputial glands of the rat 159
Plasma proteins of hosts of filarial worm 381
Poliomyelitis, experimental, effect of guanadine on 529
Poliovirus, stabilization by cations 683
Poliovirus and Coxsackie virus in mice and tissue cultures 585
Poliovirus growth in tissue culture, cytochemical and fluorescent antibody studies 106
Preputial glands of the rat 159
Profibrinolysin, activation by urokinase 89
Proprioceptive innervation of striated muscles in the territory of cranial nerves 405
Pseudomonas aeruginosa, protevtive effect of patients' sera in experimentally infected mice 268
Psittacosis virus, cytochemical test for detection of antibiotics against 343
Psychosis, relationship between Wechsler-Bellevue Digit Symbol performance and 76

Radiation injury, human amnion cells in the course of recovery from 811
Renal and cardiac lesions due to fludrocortisone and factors influencing their development 774
Retina, cytochemical studies on proteins of 198

PAGE

Renal compensatory hypertrophy, changes in deoxyribonycleic acid 825
Reovirus (ECHO 10) in monkey kidney cell cultures 851
Rh hapten, effect of ingestion on serum phospholipid 370
Ribloflavin-5-phosphate, effect on thrombin induced
fibrinogen-fibrin conversion 178

Salt susceptibility in mice, relation of aging to 739
Schistosoma haematobium, effect on egg-laying capacity
of *Bulinus Truncatas* 327
Haemobartonella in the mongolian gerbil 123
Seminal vesicle in castrate mice, effect of testosterone on weights of 753
Serum phospholipid, effect of Rh hapten ingestion of 370
Skeletal muscle studies 749
Small intestinal transit, effect of fasting 540
S-methyl-carbamoyl-l-cysteine, antitumor activity 860
Smoked paper, tobacco and cigarettes, effects on
chromosomes *in vitro* 518
Staphylcocci, effectiveness of furaltadoneon 35
Stressed rats, erythrocyte survival in 769
Striated muscles in the territory of cranial nerves,
proprioceptive innervation of 405
Succinic dehydrogenase system, demonstration in tissue culture 134

Testosterone, effect on weights of thymus and seminal
vesicle in castrate mice 753
Thiamine deficient rats, depletion of ascorbic acid in the adrenals 188
Thioester analogs as non-competitive metabolic antagonists 277
Thoracic duct lymph, influence of hypothermia on 785
Thymus in castrate mice, effect of testosterone on weights of 753
Tobacco, cigarettes and smoked paper, effects on
chromosomes *in vitro* 518
Trichinella, studies on immunological tolerance with mice 580, 866
Trichinella metabolic antigens, evaluation of immunogenicity
by mouse oral LD50 580

Urokinase, Physiologic activation of profibrinolysin 89

Vacuolating virus, cationic inactivation 701
Valine and isoleucine homologs, biological activities 801
Viral infections, mixed, in mice and tissue cultures 585
Viral tumors in mice, pathology and morphology 217

Wechsler-Bellevue Digit Symbol performance and psychosis 76

Yeast alcohol dehydrogenase rabbit antibody interaction 145
